STDE-3	3"	10'	10
STDE-35	3 1/2"	10'	10
STDE-4	4"	10'	10

Description: The Starter TRAC™ Drip Edge makes moisture control easy, thanks to built-in weep holes and a drip edge that keeps water moving away from the wall. With extra bonding grooves on both flanges, it grips foam and base coat tight. It's a smart, simple way to get a clean finish that stays strong over time.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
