STWP-25	2 1/2"	10'	15
STWP-3	3"	10'	10
STWP-4	4"	10'	10

Description: Designed for use at the base of walls or around doors and windows, the Starter TRAC™ with Weep Holes helps water exit the system efficiently while giving you a strong bond between the base coat and foam. With built-in grooves and perforations for a better hold, this bead is a dependable choice for exposed edges that need both moisture control and durability.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
