

Soffit Drip Screed Submittal Sheet

STOCK NO.	A SIZE	LENGTH	PCS. PER BOX
2254-50	1/2"	10'	25
2254	5/8"	10'	25

Description: Soffit Drip Screed combines a clean edge reveal with reliable moisture control. Designed for exterior soffits, it features a built-in drip edge that directs water away from the fascia and helps prevent damage to the soffit area. Bonding grooves support strong adhesion of the base coat, and built-in stops ensure a smooth, even finish. A smart choice when you need performance and a sharp look in one profile.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

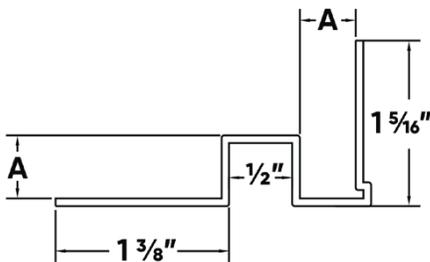

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
