ebuildingproducts.com

The Cosmopolitan Series in Stainless Steel Is a Modern, Clean Look for Recessed & Surface-Mounted Extinguisher Cabinets.

Door & Trim Construction: # 4 stainless steel.   Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. All models have 1-3/4" wide trim on frame and 1-1/4 trim on doors with glazing.

Trim Style & Depth: *Trimless Recessed -* for 5/8" depth drywall or 3/4" plaster. *Recessed* 3/8" flat trim, *Semi Recessed -* 1-1/4", 1-1/2" Square Edge or 2-1/2", 3", 4", 4-1/2" Rolled Edge (4" has recessed Flush pull). See separate submittal for trimless models.

Tub: The tub is constructed of cold rolled steel with white powder-coat finish standard. Tub forms a flange to cover cut edges of wallboard material.   Fire-resistant material is attached to the exterior of the tub. *Please note that dimensions for wall opening have changed on 1/23/15. See Chart on pg 2.*

> **Fire-Rating:** Fire-FX2™ cabinets are fabricated in accordance with the UL label for one and two hour combustible and non-combustible wall system building codes. The fire testing has met the requirement of ANSI/UL 1479 (ASTM –E814) and ULC/CAN S115-for membrane and penetration firestops. Installation instructions must be strictly adhered to in order to obtain the fire rating.

STEP 1: **SELECT MODEL NUMBER AND QUANTITY ON CHART** (refer to chart on pg 2)
A. Determine Trim Style according to wall depth. **B.** Determine Tub I.D. according to size most suited for extinguisher and wall opening.
